Beschreibung

First registered on 17th March 1969 as 'XPA 229G', this particular DB6 was delivered equipped with power assisted steering, chromed wire wheels and automatic transmission (replaced with a ZF 4HP automatic by G Whitehouse Ltd in 2005). The car had had four owners (details available) and undergone two changes of registration before coming into the current vendor's possession in August 1976. A complete set of MoT certificates is available dating back to 1975 when the mileage was recorded as 64,973. The current total of 123,100 miles is believed genuine.

We are advised that the Aston has not been used on salt-treated roads since 1978 and rarely been driven on wet roads since 1990. It has not suffered any (even slight) accident damage since its acquisition in 1976. The child seat attachments were added by a previous owner!

Major works carried out by Aston Martin Works Service include fitting a stainless steel exhaust in 1975 (and stainless manifolds in 2006) and rebuilding the c
