It is very rare that the CTS team are lost for words but when we first saw this car that was exactly what happened...

The Hot Rod scene in Australia is huge, second only to the USA in both size and stature. It is fair to say that the quality of Hot Rods produced in Australia are of the highest standards found anywhere in the world. The car we offer here would fall into the top echelon of Australian built Hot Rods and would be a most welcome addition at any of the top Australian Hot Rod Eve
