In the Azure the sleek, sculptural glamour of the early coach built convertibles is paired perfectly with the thrilling performance and long-legged, continent-crossing capabilities of a modern sporting Bentley. Combining grace with a commanding presence, and in a world of mass-produced mundane modernity, it is a statement of true individuality. There is a sheer wanton glamour about the Azure that for those with the time, the inclination, the money and the lust for life, find impossible to resist. The Bentley Azure is an example of British craftsmanship and engineering at its most enjoyable.

Based on the highly successful Continental R and introduced in the mid-1990s, it offers the demanding driver the charm of open-topped motoring allied to out-and-out supercar performance. But much more than that, it offers a unique feeling
