Oxfordshire OX20 1PX

Saturday 5th July 2008 at 14.30

When Mercedes-Benz replaced the popular W111 220 series in 1966, the first S Class range was born. Much of the mechanical specification remained as before, but a new, sleeker body shell with lower roof and waist lines and a larger glass area was much more modern in design than the dated, finned wing appearance of its predecessor, supplementing the saloons there were, as always, both coupé and cabriolet derivatives. All of these W108 models, however, shared similar all independent suspension via wishbones/coil springs at the front together with a coil sprung swing axle at the rear,

all round disc brakes and power assisted steering were also standard equipment.

Power was provided by a choice of three overhead camshaft, six cylinder engines, for the 250S, the 2,496cc motor produced 130bhp via twin carburettors with the 2
