First registered in August 1969, this wonderful DB6 had enjoyed five keepers by the time it was acquired by the vendor from marque specialists Four Ashes Garage of Stratford-upon-Avon in June 2006, the immediately preceding private owner having had the car since August 1988. The vehicle was a part-completed restoration project when acquired, the aluminium bodyshell having been

stripped back to bare metal (revealing it to be in excellent condition) and the chassis already rebuilt.

'MMA 44H' is presented today in fully restored condition. A full list of work carried out and parts replaced is available for inspection, which is recommended. Highlights include an engine rebuilt with reground crankshaft, blueprinted bottom end, new flywh
