Beschreibung

French registration

- No reserve
- A spacious cabriolet
- 5 liters engine
- Well monitored maintenance

Purchased in 2007 by its current owner at an Artcurial auction, this Mustang convertible is powered by the 302 V8 engine (5 liters) and an automatic transmission. It also has power steering, disc brakes at the front, GT wheels, a white electric hood, hood protector and a circuit breaker. This car has undergone a complete restoration in the 1990s, which is reflected by an important photographic record. White in color, it has red imitation leather upholstery and red carpets, with the famous galloping horse logo.

Since its purchase, the current owner regularly maintains the car at Mustang Garage EMC Vincennes, the works included the replacement of the tyres, exhaust silencer, power steering pump and electric hood pump. It has also benefited from a complete repaint and a general overhaul in 2010.

This car is a very good representative of the famous "pony car" in a version that was still not compromised from the original Lee Iacocca concept as imagined at the very beginning. It will surely provide its next owner enough power and great driving pleasure.
