Antrieb	Zweirad	Automobiltyp	Limousine

Beschreibung

One of the most important car ever made - Hispano Suiza and its latest barnfind - real survivor of type H6C/T56bis.

This magnificent and really big car is with still most desirable chassis of eight litre Hispano and even pictured in the book "The legendary Hispano Suiza" by Johnnie Green. This car is so unique because not only the original condition it's to be found, but also because it is the real witness of how cars were modernised during years of service and this is indeed the last factory creation on T56bis chassis ever made.

Ideal to keep as it is, or to restore, it is depending on each individual taste. For more information please contact us.
