Landesspezifische Mehrwertsteuer	DK	Motorradtyp	Straßenmaschine
Leistung	90 PS / 67 kW / 89 BHP	Hubraum (cm3)	1800
		Farbe	Grün

### Beschreibung

This machine represents the latest version of the Great Dane model. Despite its serial number 68 it is actually one of the last-built machines. As the name suggests the overall theme of the machine is inspired by classic American style: This is evident in a discreet two-Tone paint scheme with the tones elegantly separated by a silver-gray stripe. The color tones are held in light metal green versus a dark variation of racing green and the dark green seat discreetly has stitches in the same silver color that separates the tones in the paint. The US Style Green is equipped with the SS engine, here in a polished variant - to a degree where almost every surface can be used as a mirror. The braking system elements is consistently held in the exclusive drop-shaped design in perfect harmony with the long and curved lines of the machine itself. The headlight is the long variant and the design on the special aluminum wheels is repeated in the hub of the brake discs. The overall impression is thus an exclusive new take on a classic American look: US Style Green is an elegant motorcycle that will adorn any collection.

MY GARAGE A/S

The logo for 'MY GARAGE' is displayed in a dark green rectangular box. The word 'MY' is in a large, bold, gold-colored font, and 'GARAGE' is in a smaller, gold-colored font below it.
