

brakes with ABS, this was indeed a 'driver's car'. The Ferrari 550 also enjoyed a great amount of success in competition, often in collaboration with those talented race engineers from Prodrive in Banbury. In October 1998, Ferrari sent a lightly modified version to a 12-kilometre oval test track in Columbus, Ohio and set three new world records as follows:- A distance of 100 miles covered at an average speed of 190.2mph.- A distance of 100 kilometres at an average speed of 188.9mph.- Driving for one hour at an average speed of 184mph. To celebrate these records, Ferrari built 33 road cars to the exact specification of the record-setting car. The differences over the standard car were the Fiorano handling pack, leather-trimmed roll cage, suede-covered steering wheel, and carbon bucket seats with Daytona stitching and race harnesses. Other changes included the Scuderia wing shields, throaty sports exhaust, Corsa brake callipers, Bordeaux carpets and a 'WSR' plaque. The WSR featured here is one of only ten right-hand drive cars destined for the UK and is finished (as are the majority of WSRs) in Grigio Titanio with a Bordeaux Leather interior. Delivered new by Stratstone of Wilmslow on 1 March 2000, it has pleasingly remained in the UK ever since and is now offered from the stable of a significant private collection where it has been residing since 2014. During this period it has been looked after by the knowledgeable team at Italia Autosport with a major service and cambelt change carried out in October 2017. The car presents superbly and could comfortably be described as immaculate. The interior is in equally lovely condition and all the interior plastics have recently been refurbished. We understand that the car is also 'mechanically superb' and will be accompanied by an 'Italia Autosport Condition Report'. The original books and manuals in the dedicated Ferrari wallet are with the car as are the toolkit, two keys, and three alarm fobs. The MOT is valid until 12/03/2019.

Service history:

- 10 May 2001 5,432 miles Ferrari franchise agent
- February 2002 9,896 miles Ferrari franchise agent
- 29 November 2002 14,856 miles Ferrari franchise agent (cambelt change)
