Beschreibung

25 points improvements for the car, including lowering the front, reducing the door, resetting the dashboard 3 cm, missing interior mirror, cockpit lighting etc. The writing was made by the two chief executives Ing. on April 18, 1947 and signed off after a final discussion with Enzo Ferrari on April 19, 1947. Very early document and one of few known documents about the two completely redesigned first 2 Ferraris, shortly before the first race.
