This 1970 Triumph TR6 is in a superb original condition and five years ago was exported to Belgium. Built in 1970, it was first registered in 1971. It has been exceptionally well maintained. Documents show that much has been spent on keeping the car in great condition. This authentic TR6 has nice straight body panels that are all fitted together snugly. It has benefitted from a re-spray in the past and the chrome detailing is as good as new. The original underbody is sound and absolutely rust-free. Thanks to its meticulous care, this TR6 has never required any restorative work. It is a pure delight to drive such an authentic car with its twin SU carburetors, double stainless steel exhaust system and overdrive. It has been finished in the original colour combination of 'Jasmine Yellow' with a black

interior trim and matching hood. It has Mini-Lite rims and a wooden Moto-Lita steering wheel. We are more than happy to suggest this superbly original TR for the coming season!
