Antrieb	Zweirad	Außenfarbe	Sonstige
Losnummer	25260595	Automobiltyp	Sonstige

Beschreibung

This classic car is for auction at online auction platform Catawiki. Please click here to place a bid and to find more information about this. The Dino 208 GT4 was produced the first time in 1975, up to 1980. 840 copies were made and the chassis numbers began with the 08830 to end with 15596. This is the only Ferrari designed by Bertone from unmistakable and fascinating aerodynamic lines. The Dino 208 GT4 engine is a small technical masterpiece, remaining the smallest V8 ever produced in series and showing an incredible power for the engine. He always kept it in a dry close space with rigorous maintenance. The bodywork of the rare Dino Red colour is lovely and shiny, without scratches or rust and the bottom is intact as well. The sports interior is in creamy-coloured leather and fabric, original and well preserved, as well as dashboard, steering wheel, headlining. The incredible 1,980 cc gasoline engine, with 4-speed manual transmission runs fine as well as all the mechanics. Looking at the photos available it's obvious how this Ferrari, more than 40 years old, is in a great shape and very well maintained, a real collector's item not to be missed. The car can be viewed/tested and picked up in Controguerra (TE), Italy. We will take care of the administrative procedures and documents also for the export, and we can also arrange the transport.
