### Beschreibung

Fantastic rear end of a Alfa Romeo TZ1, ready to be issued on your wall.

This is a fantastic Automobilia object to add to your collection, is made of fiberglass and is fitted with all original spare parts like bumpers and lights.

Is real scale, made many years ago from an original rear end of an Alfa TZ1, so is exactly like the original car!

This model is really light, you will have no problem to fix to your wall, with the easy mounting system on the back.

Ask us for any information.
