### Beschreibung

Making a whole sports car with the base of a car with a clear family cut is somewhat complicated, and even more so in the 70s. However, this Fiat 131 Abarth, with its radical transformation, put long teeth in lovers of the motor world of the time.

Designed by the Bertone Group, this model received Abarth's magic powders in the mid-1970s to make it an automobile jewel, capable of bringing a smile to the most demanding driver and with dynamic capabilities at the height of the best of the time.

This unit in perfect condition is for sale with only 59,000km.
