. Swiss street legal!
. Wagenpass
. Krypto Zahlung akzeptiert

"This is an outstanding example of a historic race car. Produced in Weissach with all the relevant CUP tools like MATTER Gage, Magnesium Wheels, original Recaro seats etc. Modified engine in 1990 to a 16V. It drives like back in the time. It smells like new. It looks nearly new. If you see another 1988 CUP car in this condition - please let me know! "
