Beschreibung

Transmission: 3 gears, Automatic

Model year: 2020

Registration number: 70-YD-53

We have a wonderful Jensen Interceptor Series 3. The car has been sourced from the one and only first Dutch owner who imported the car to Holland in the 90's. A fat file full of documentation reveals the care and attention the previous owner lavished on this car over the last 20+ years. When it arrived in the Netherlands it had a red finish. The car was taken back to bare metal and the engine taken back to the very last screw. The interior was re-upholstered and the transmission was thoroughly serviced. The car has a Chrysler 7.2 litre V8 attached to a 3-speed automatic transmission. The car delivers 280 Ps with excellent torque in the lower range. The Jensen Interceptor is undoubtably a beautiful model. The bodywork is by Carrozzeria Touring. We are happy to find this Jensen in a wonderful restored condition. The full restoration took place over the last two years. This Interceptor was taken back to its constituent parts and reassembled using many new parts. Documents show that a small fortune was spent on this Jensen. The bodywork is of top quality. The

panelwork is lovely and the alignment is correct. The quality and condition of the re-spray is excellent. Adding to the external aspect, a new front screen and moulding were fitted. The interior trim was completely re-upholstered and that really shows nicely. Where ever you look there is an abundance of new leather. Naturally the rest of the cabin received the same level of attention it rightly deserved. The cable loom underneath the dashboard has been renewed and a new radio fitted. Of course just as much care and attention was given to the car's mechanical aspects. New hoses, a new carburettor, a new heavy-duty starter motor, a new battery were fitted with the air-conditioning and heater being fully overhauled. The engine has also been fully overhauled and maintained since. You will not have to overhaul the engine again. Driving this car you become aware that this is not just any old Jensen Interceptor. This big British GT excels in covering large distances in the upmost of comfort. The automatic works smoothly and is a perfect match for the Chrysler V8 engine. The steering is good and the suspension behaves perfectly. A photographic record as well as numerous invoices detail the restoration nicely.

This wonderful Jensen Interceptor is ready to roll and comes with a plethora of documentation. Gallery Aaldering is Europe's leading Classic Cars specialist since 1975! Always 400 Classic and Sportscars in stock, please visit www.gallery-aaldering.com for the current stock list (all offered cars are available in our showroom) and further information.
