Beschreibung

The Grandprix Sneaker has been developed to be the best shoe for driving but also for running with precision or just comfortably hanging out for a whole day. It is the ideal companion for all the Drive & Lifestyle events. Its unique design and many details make it one of a kind. The pure natural rubber sole with its special profile modeled on a car tire also arches on each side to protect the leather. The rounded heel, directly inspired from car racing, gives a perfect grip and allows a precise action on the gas pedal. 100% cowhide and a careful and precise "Made in Italy" workmanship in a small shoe factory are the clue for the highest quality. The top-seller among leather sneakers impresses with its orange stripes and laces as well as the rustic color combination of deep indigo blue, dark cognac and touch of espresso on the heel. A true classic among the sneakers!
