Beschreibung

Maserati writes a new chapter in its history by expanding its Trofeo collection. Following the 2018 launch of Levante Trofeo, the new Quattroporte and Ghibli, powered by the Trofeo engine, are now available and the poster celebrates Maserati's reinterpretation of its sedans with the V8 engine. The engine, which has already revealed all its power on Levante Trofeo, has been built at the Ferrari plant at Maranello to Maserati's specifications, and then been modified and developed to deliver equally impressive performances on the rear-engine sedans.
