Achilles was a West German manufacturer of mopeds and scooters from 1953 to 1957. The mopeds were equipped with single-cylinder 2-stroke engines with a displacement of 48 cc, while the scooters had, depending on the model, a displacement ranging from 98 cc to 175 cc with Sachs engines.

When the factory closed its doors in 1957, all the equipment was bought by the British company Norman Cycles. An opportunity to buy a truly rare and very original scooter._x000D_

Restored and presumably never used since. A general mechanical check is recommended before use.
