Beschreibung

Not registered, without papers.

Engine No. 11622_x000D_

x000D

The Tourist micromotor, produced by Itom, was one of the most versatile auxiliary motors with roller transmission, lending itself to the easy application in a central position between the pedals on many bicycle frames. The Tourist was installed on a frame with parallelogram front suspension and the fuel tank positioned on the top tube of the frame. Restored and presumably never used since. A general mechanical check is recommended before use._x000D_
