### Beschreibung

We are offering this car on behalf of a mutual client with Oselli

Affectionately referred to as 'The Beast' by her most recent keeper

For those who haven't driven a Vantage with the RS Williams 7.0 liter engine upgrade we cannot recommend it highly enough, the Vantage never really wanted for power anyway so putting a confirmed 455bhp under the bonnet turns this into a modern car killer

Complete with fuel injection, revised cam shafts, larger throttle bodies and new ECU's she is on the button and unerringly smooth having covered only 7000 miles since the treatment was given

Finished in Cumberland Grey over Black Connolly leather her subtle hues give no indication to 'The Beast' that lies within, although the 1990s spec wider arches, wheels and tyres do hint at her thoroughbred underpinnings

And they are thoroughbred as not only has the engine been upgraded but a new handling kit including up-rated suspension and braking has also been applied to help tame 'The Beast' within
