Beschreibung

2017 ASTON MARTIN V12 VANTAGE AMR - MANUAL

Delivered new in 2017, the V12 Vantage AMR, fittingly finished in Stirling Green with Copper Tan and Black hide and Alcantara interior, has had 1 owner from new and now covered a total of only 2,658 miles. Fully protected with Topaz PPF the car presents as virtually indistinguishable from new, throughout.

Launched in June 2017, the V12 Vantage AMR (Aston Martin Racing) was conceived and produced in celebration of the Aston Martin's racing success, in particularly with their win at the Le Mans 24 hrs that year. Equipped with the last and most powerful variant of the sonorous and naturally aspirated 6.0 litre V12 engine, no longer built. The Vantage AMR V12 engine, rated at 595 bhp and mated to a 7-speed manual transaxle transmission, is a highly fitting tribute to its endurance racing counterpart, giving extreme levels of performance whilst affording high levels of comfort.

Just 31 V12 Vantage AMR 7-speed manuals were manufactured in Right Hand Drive, with only 19 for the the UK market from a total of 75 cars built before production ceased. In addition to the 2018 model year specifications, notable optional extras specified with this example include the lightweight carbon fibre seats, lightweight gloss black wheels, Carbon interior pack, Lime Green colour coded brake calipers and distinctive halo package.

The combined attributes of naturally aspirated, highly audible, smooth and visceral sportscars with manual transmissions, are now becoming a 'thing of the past', as the industry marches to a turbo, hybrid and electric future. The V12 Vantage AMR is a modern classic in every sense, a homage to racing glory and extremely rare. In exceptional condition and with low mileage, this superb 'last of a type' supercar is highly recommended to the new era collector or enthusiast alike.

On display now, the car can be viewed at our Hertfordshire showrooms and is supplied fully serviced and prepared by our own factory trained technicians.
