This offered Fiat 850 Sport Coupe was finely restored in every detail and upgraded with a Fiat Abarth 124 Engine. The Engine has 1300 ccm and develops around 130 HP. Due to the increased engine and Power, the Radiator was increased and installed in the front of the car.

The wheels were widened by a professional and the braking system was upgraded. On the outside, the paint got a racing trim. This is a fascinating and powerful car. It was always kept in the garage and belonged to the same family.

The former owner was a Fiat mechanic of the Abarth racing department.
