Paris Salon 2002 - latest photographs

On the 28th of September the 'World of the Automobile' opened its doors in Paris. No less than 50 'premieres' were announced, the most eagerly awaited being Bentley's new Continental GT. But of course Ferrari and Porsche were on hand with their 'Enzo' and 'Cayenne' respectively.

Classic Driver's 'homme d'affaires' in Paris, Olivier Penat, was on hand to record events and before a full feature appears here, we are delighted to show you a photo-gallery of the star cars.
