

CLASSIC DRIVER

Exclusive Classic Driver Calendar 2003

Moss, Brabham, Stewart, Clark - the motor racing legends of the 1960s whose names are synonymous with unique skill and outstanding courage - are all featured in action in a limited edition, ultra-large (59.5 cms x 42.0 cms) 2003 calendar from classicdriver.com. Twelve images from the work of acclaimed motorsport photographer Michael Cooper have been selected for a collectible of which just 500 will be printed - each numbered and signed by the photographer.

The black and white action shots of drivers racing for marques including **Aston Martin, Ferrari, Lotus, Porsche** and **Jaguar** evoke what Michael Cooper believes was a 'golden age of motorsport' in a period when few restrictions were placed on photographers, to capture unique moments in motor racing history. Motoring writer, (and *Classic Driver* contributor), Tony Dron has written the foreword and captions.

Says Classic Driver UK's director Steve Wakefield, "We wanted to create a collectible which would reflect the style and quality of classicdriver.com. Michael Cooper's photography has been beautifully reproduced and the calendar will, we are sure, bring great enjoyment to anyone with a love of the motorsport legends and marques of the 1960s, not only in 2003 but for many years to come".

The calendar costs £59.95 (or €110 including postage and packing to Europe - other areas by request) and is available by mail order from Classic Driver UK, Fountain Court, 2 Victoria Square, St. Albans, Herts AL1 3TF, UK.
