## 3rd March 2003 - Auction Preview - Coys at the London Business Design Centre

*Text- Steve Wakefield*

**A 1952 Allard J2X is expected to fetch £75,000 - 80,000 at Coys first London sale of the year at the Business Design Centre, Islington. This, together with a mix of lots ranging from racing cars to a 1960 Austin Healey restoration project will provide suitable fodder for those wishing to pick up a classic for the summer months.**

One of the features of the sale is the wholesale auction of one historic racer's collection to finance 'a big step in his historic racing plans'. Vehicles include a John Chatham prepared works replica **1965 Healey Mk III** in 'works' green/white livery (Est £30,000 - 38,000) and three Jaguars, a **1964 Mk II 3.4** (Est £14,000 - 18,000), a **1962 E-type 3.8 FHC** (Est £20,000 - 26,000) and a restoration project **1958 XK150S** (Est £20,000 - 25,000). Coys are not letting on the exact nature of the vendor's 'big step' however once must presume the success of the sale will decide.

On the racing front a **1968 Brabham BT31**, as driven by 'Black Jack' himself is 'refer dept' - so we shall have to wait for the results to see what this achieves.

For a full listing, see the [Provisional Auction Lotlist](#).
