## Hamann Lamborghini Gallardo

05 January 2006 | Classic Driver

**Swabian tuners Hamann Motorsport have announced an extensive aerodynamic component programme for the Lamborghini Gallardo. In addition, a new exhaust system boosts power to 528 hp. The kit comprises front spoiler, side sills, lateral air intake covers, air scoops, three-piece rear spoiler, rear diffuser, sports metal catalysts, sports rear silencer, and split-rim HAMANN 19" ANNIVERSARY II design light-alloy wheels.**

By using sports steel catalytic converters and two stainless steel, double-pipe sport 76 mm diameter silencers, the performance of the HAMANN Lamborghini was increased by 28 hp; to 528 hp. At the same time the maximum torque was increased by 50 Nm to 560 Nm.

Two versions of the front and rear spoilers are available (one adjustable, one non-adjustable), while all components can be selected in either fibre-glass or natural carbon-fibre.

The multi-part wheels are available in both 19" and 20" versions in the following sizes -

ANNIVERSARY II Front: 9 x 19 with 235/35 ZR19 tyres.

ANNIVERSARY II Rear: 12 x 19 with 295/30 ZR19 tyres.

ANNIVERSARY II Front: 8.5 x 20 with 235/30 ZR20 tyres.

ANNIVERSARY II Rear: 11.5 x 20 with 305/25 ZR20 tyres.

"EDITION RACE" Front: 8.5 x 20 with 235/30 ZR20 tyres.

"EDITION RACE" rear: 11.25 x 20 with 305/25 ZR20 tyres.
