# CLASSIC DRIVER

### **Bonhams & Goodman Auction 26th Mar 2006 Sydney - Preview**

## The highlight of the forthcoming sale in Sydney, Australia is a 1927 6 1/2 litre Bentley bodied as an exact copy of the Team Car, 'Old No 1', that won the 1929 Le Mans 24 Hours.

Estimated at Aus\$580,000 – 780,000 (that's around £Stg250k – 330k), the car benefits from not only an original chassis – a valuable commodity now – but also a complete 're-commissioning' by the then vendor, the late Tony Townsend of Elmdown Engineering, in the early '70s in the style of the fast and famous Le Mans car. In fact it may well be that the engine fitted by Bentley Motors to the car (under warranty) in 1929 has 'Works' associations. Whatever, the car ticks all the boxes of desirability to vintage Bentley fans and has the added bonus of over 30 odd years of patina on its body, fixtures and fittings – so important compared to an 'out of the box' Vanden Plas replica nowadays.

1933 Delage D8 15 Series Coupé

1969 Toyota 2000GT

There are also some other significant pre-war cars in the sale such as the **1933 Delage D8 15 Series Coupé**, \$Aus80.000 - 100.000, the **1928 Rolls-Royce Phantom I Saloon by Windover**, \$Aus85.000 -110.000, and the **1926 Sunbeam 3.0 Litre Twin Cam Super Sports**, at \$Aus150.000 - 200.000. The **Delage** is an interesting one because it was bodied by Martin and King of Melbourne who copied many of the latest features used by the most stylish French coachbuilders and is by all accounts the original coachwork on this chassis. It also has a four-carburettor conversion to its straight eight motor giving performance that includes being able to "cruise comfortably at 110km/h". At around £Stg 33k - 43k) it's a good buy.

The auction includes not one, but two **Mercedes-Benz 300SLs** – one a roadster and one the famous 'Gullwing'. Both are red and in very good condition, the coupé is fitted with the desirable Rudge wheels, and is catalogued as "the best we have seen".

Three lots feature from the Estate of the late Harold Clisby, a prolific and versatile Australian inventor who was responsible for the original design, engineering and production of a lathe now made by the US Company, Sherline. One of these is the **1969 Toyota 2000GT** (\$Aus100.000 - 140.000), the elegant Albrecht Goertz-designed little car was always too expensive (more at the time than an E-type or 911) for the market but was a fast 2-litre, six-cylinder GT car. With its worldwide select group of aficionados, the cars are very rare (just 337 were made between 1967 and 1970) and desirable.

As befits the wonderful harbour city-setting, the sale also includes several sporting boats and yachts, and your author's favourite would be the **1946 Halvorsen Australia Timber Motor Yacht** at \$Aus320.000 - 420.000. *Alexa* (or *Louisa* as she was known previously) is described as "one of the icons of Sydney recreational boating".

Make mine a pink gin!
