## Rolls-Royce 'Phantom Black'

**Created through the Bespoke programme at Goodwood, Rolls-Royce has made a limited run of cars with bodywork finished in High lustre metallic Diamond Black paint and including a host of special features inside.**

The special colour is complemented by twin silver coach lines. 21-inch alloy wheels come fitted with high performance Goodyear run flat tyres and feature unique black detailing and centre caps with RR badges, engineered to stay upright even at speed. At the rear of the Phantom Black, visible tail pipes hint at the car's performance.

Under the bonnet the 6.75 litre V12 engine has been treated to gloss black inlet manifolds, chrome plated top covers and new black Rolls-Royce badges. The near silent motor provides 453bhp, enough to propel the Phantom Black from 0-60mph in just 5.7 seconds and on to a limited top speed of 149mph.

Inside, soft black leather upholstery is edged with Seashell piping. Black ash wood veneers are used throughout and while dark in finish, still allow the natural grain to show through. A silver pinstripe adorns each door capping. The dashboard is finished in special black metal foil with a finely embossed diamond pattern. A slightly thicker rimmed steering wheel adds to the dynamic spirit of the Phantom Black.

**Specification:**
