## Zymol - Winners at Pebble Beach 2006

28 September 2006 | Classic Driver

**Pebble Beach 2006 - Zymol prepared vehicles received Class Awards 1st, 2nd and 3rd, with Rolls Royce Silver Ghost 1912, Ferrari 250, and Rolls Royce Ghost 1914.**

The Zymol-prepared **Mercedes Benz** was judged Best in Show. Overall 21 out of 30 vehicles judged were **Zymol** prepared, and the product range continues to win Concours in the UK in single marque and all-comer shows.

**Zymol** are also responsible for the preparation of all vehicles for **Christie's Auctions** worldwide and this experience of preparing prestige cars and accumulating hands-on experience of the products has led to Zymol Inc. backing new UK management.

To coordinate activity across the UK and Europe **Zymol Inc** has opened an office in Bournemouth in

the United Kingdom, which will act as the Warehouse and Distribution centre across this large area. Its principal role is to promote the **Zymol** brand throughout the UK and Europe and to promote the interests of authorised licensed resellers and detailers throughout the area. There is also an important role of policing unauthorised resellers and non-licensed detailers within the area.

Craig Binns, Director, commented that 'we now have full control over European-wide supply of the Zymol product range, which means we can ensure plentiful stocks to satisfy the ever-growing need of discerning owners of premium cars for the best products available. We're setting marketing strategy to bring the products to their natural environment though sponsorship of key marques' Club events such as **Aston Martin**. We're deeply committed users of **Zymol** products and will gladly make our experience of their use available to anyone who'd like to upgrade to them'.

These premises will act as the UK & Europe Headquarters from the UK address
