## Clear automatic watches from EmaS

07 December 2006 | Classic Driver

**A frequent sight on the tanned wrists of the International Set in the Med this summer, the chunky see-through watches have now hit London just in time for Christmas.**

Set in the heart of Kensington, alongside upmarket mews garage **Bramley of Kensington** , Timepieces Ltd is the Sole UK Distributor for EmaS Watches. A family-owned and run business, they have 11 years experience in the luxury watch industry.

Various models are available, but all feature the clear case and either transparent, rubber or military-

style webbing straps. All are available in a variety of colour combinations.

The Classic Divers' watches (left and right, above) are available with an automatic movement, sweep second hand and the date at 3 o'clock under a magnified glass. The whole collection has a mineral crystal glass and are water resistant to 50M - and of course come with a 2-Year Guarantee.

The cost - just £125.00 inclusive of VAT.

For further details please contact -
