Christmas Stocking-Fillers

□

If the man or woman in your life is a historic motorsport enthusiast, there can be few better stocking-fillers than two DVDs recently produced by the Goodwood Road Racing Company.

First, there's an unmissable blend of drama, excitement – and rain – captured in the highlights of the **2007 Goodwood Festival of Speed**. From WRC cars on the Forest Rally Stage; through the five (yes, five) **Bugatti Royales** in the **Cartier 'Style et Luxe'**; to the dramatic **Land Speed Record** cars displayed on the Goodwood cricket pitch. Not to mention a certain Festival debutant in the form of **Lewis Hamilton**, who showed such charm and enthusiasm despite the relentless rain.

Secondly, for more dedicated historians, there is a wonderful compilation of previously unseen archive footage entitled, **'Goodwood - the Motor Racing Story, 1948-1966'**. Here you can look back and see the legendary drivers and cars as they were, in their day.

The DVDs cost £19.95 each, plus post and packing. Call +44(0)1243 755098, email shopping@goodwood.co.uk or see www.goodwood.co.uk/retail.

Editor's Note: *I have already 'test driven' the 'Goodwood - the Motor Racing Story, 1948-1966' DVD, and can report that for those suffering withdrawal symptoms soon after the event closes for another year, it's the perfect tonic.*

There's plenty of period film of the original TT and other saloon and single-seater races, including the infamous accident that ended Sir Stirling Moss's career in 1962, while the in-car shots from one of the first Revival TTs are also worthy of mention. Behind the wheel of a Ferrari 250 GTO? – You cannot beat that.
