Automobile Excellence in Reims

27 March 2008 | Classic Driver

Reims is once again hosting the Weekend of Automobile Excellence (September 12th-14th). The capital of the Champagne region has a long and respected association with motorsport and it celebrates that history with this spectacular event for cars and motorcycles from 1925-1969.

The historic pits and grandstand will form the backdrop to a host of fabulous demonstrations, along with fireworks and air displays, plus a **VIP Village** and **Commercial Village**. The 2007 weekend unforgettably saw **Jean Alesi** at the wheel of the **Fangio Mercedes W196 'Streamliner'**, and the former **Ferrari F1** star will be in action again at the 2008 event.

Sponsors include **Champagne Pommery** and **Mercedes-Benz**, and participants whose cars or motorcycles are accepted will enjoy three demonstration sessions and a hospitality package that includes the official dinner at the Domain Pommery. Full details of what promises to be a very glamorous celebration of historic motorsport can be found at www.weea-organisation.com.
