## Smart fortwo Édition Toile H: Hermès Upholsters 10 Smarts for Paris Dealer

14 November 2008 | Classic Driver

**To celebrate its 10th anniversary, the Como group, the official distributor of the Smart brand in Paris and the Île-de-France, has commissioned 10 Smarts in 10 different colours, clad and upholstered by Hermès.**

The Hermès craftsmen have re-trimmed the car's interior with new upholstery in its famous super-luxury leather and also *Toile H*, a high quality canvas. The gearlever and steering wheel have been covered in saddle-stitched leather, with various compartments made in *Toile H*, in typical Hermès style.

The cars will be produced in the following colours: Ebony, Gold, Charcoal, Orange, H Red, Bright Red, Fuchsia Pink, Indigo, Sky and Lime. The contrasting section of bodywork - the tridion safety cell - is covered with the *Toile H*.
