## [Classic Driver at the Geneva Show: Rolls-Royce 200EX](#)

Technical details of the new Rolls-Royce 'experimental' saloon, [as covered last month in Classic Driver](#), were revealed well in advance of the show. Nevertheless, the sight of the unveiled 200EX sitting on the stand next to the Phantom and Phantom Drophead brought home its - relatively - compact dimensions and rather more restrained image.

It's still mightily impressive, as any new Rolls would be. But, while it would stand out on its own as a gloriously indulgent and luxurious saloon, next to its larger siblings it carried a definite aura of moderation: an aura totally in tune with the times.
