[Bentley Continental Supersports Convertible ISR Mulliner](#)

The Bentley Continental Supersports Convertible ISR - the abbreviation stands for 'Ice Speed Record' - is now available with a Mulliner design package at no extra cost.

The Mulliner package adds an even more extrovert touch to Bentley's most potent and radically styled convertible ever. This Continental Supersports Convertible ISR, limited to just 100 cars worldwide, celebrates the world ice speed record for a convertible car recently set by Juha Kankkunen, driving this model. While the ISR comes in one of three distinctive colours, Beluga, Quartzite and Arctica White, the Mulliner design package additionally features bold graphics and red-accented detailing.

The 20in 10-spoke Supersports wheels can be specified in a vibrant red paint with a diamond turned finish, and the dual-louvred dark bonnet vents, unique to Supersports models, are complemented by red accent surrounds. The most obvious elements, however, are those Supersports ISR graphics running down both flanks of the car.

The Supersports Continental Convertible ISR is now available to order at Bentley dealerships and is priced at £189,300 (inclusive of VAT).
