

# CLASSIC DRIVER

## Paris Rétromobile 2013

**Always a sign that the European season has started, Paris Rétromobile proved to be another must-do event. Classic Driver brings you some of the highlights.**

Big manufacturer presence is a regular feature of the show. Naturally enough, the French 'big three', Renault, Citroën and Peugeot, were all keen to remind discerning visitors of their history, with ex-Le Mans and Monte Carlo rally cars on display.

In the largest central display area they were joined by no less impressive stands from BMW, Porsche and Mercedes-Benz.

Elsewhere, visitors enjoyed all the books, automobilia and spare parts for which the event is so famous. And Artcurial conducted a [highly successful, 14.6m-euro auction](#) that did not conclude until two o'clock on

Saturday morning.
