Lamborghini Aventador LP 720-4: Even angrier

Lead

Details have emerged of a new, more powerful Lamborghini Aventador, built to celebrate the marque's 50th anniversary...

The Aventador LP 720-4 50 Anniversario Edition will be limited to just 100 units, and will debut at the Shanghai Motor Show this weekend.

As its name suggests, the Anniversario's power has been increased to 720HP (710bhp) over the standard car's 700HP.

It has also been given a Veneno-inspired bodykit, and '50' badges to adorn the 'Giallo Maggio' paintwork.

Inside it's a similar story, with yellow accents, piping and stitching contrasting with the black leather throughout.
