## On The Road Again: Aston Martin ‘Tours with the Classics’

### Lead

Enjoying its Centenary this year, Aston Martin is slightly older than the Rolling Stones and it, too, enjoys massive worldwide popularity and the chance to meet its fans. So, this spring and summer, the famous British company is also taking to the road...

The venues will be across mainland Europe, 19 in total, in eight countries. The road show will comprise three cars: the oldest in existence, ‘A3’; the youngest, the all-new Vanquish: and everyone’s favourite, a Silver Birch 1960s DB5.

The events will be based around official dealers, commencing on 24 April in Cologne and finishing on 13 June in Paris. The cars form the centrepiece to exclusive customer events built around 100 years of Aston Martin.
