Supplied in 1973 to the US, this well presented V 12 Jaguar E-Type Roadster came back to European shores in 2010, since when it has undergone a high degree of cosmetic restoration and has been repainted in its original grey-green livery.

The vendor points out, that upon this restoration it has been noticed that the car, very unusually, has received no welding during its life. Coming in substantially unrestored structural condition - apart from the cosmetic work to it - the car sits on chrome wire wheels, is equipped with the automatic gearbox, air condition and a dark brown mohair hood. The cosmetic work is photo documented, and a service booklet, tools and owners manual are in the original valet.

The last of the phenomenal E-Types which celebrate 50 years in 2011 and the end of an era.....
