### Description

Coys Auction

Ascot Racecourse,

Berkshire SL5 7JX

Saturday 2 October 2010 at 3pm

A fully equipped SL600 is ordered from Mercedes-Benz and is sent to Brabus factory where the engine is removed and completely stripped down. Cylinders are bored to 83mm and a special crankshaft is ordered, steel conrods and Mahle pistons are fitted to increase capacity from 5 ½ litres to 6.3. With new engine management and new camshafts plus a few other tweaks, power increases to 640bhp at a cost of £27,000. Due to the increase in power and torque, (757lb ft) a new gearbox is fitted along with an oil cooler in order to get the performance to the wheels without causing damage.

Described as being in excellent condition and with only 2 owners from new, this rare Brabus is number 11 of a total run of 40 cars and offers superb value for money considering that just six years ago this very car was

sold for around £150,000. As you would expect with a top of the line Mercedes it is fitted with all the toys including
