The example we offer today was manufactured towards the end of T2 production in 1979 and is delightfully finished in Brewster green with a Magnolia hide interior. The car had a bare metal re-spray and finished with a new Everflex roof and new braking system. Further work consisted of the fitment of new exhaust manifold in 2005 and the removal of the cylinder head and the fitting of new valves which was carried out in 2007.

Supplied with a V5 document this example has been with the current owner for the last 15 years and comes with a current MoT test certificate valid until September 2010 and is offered at
