Description

Coys Auction - Automoto D'Epoca
Padova Fiera
Padova, Italy

Italy

Saturday 25th October 2008

Admission by catalogue only - admits two.

This coupe was constructed by ATL Autotecnica del Lario of Como in 1968, based around an experimental OSCA prototype called a 1500 SP which was developed by OSCA to take part in the Le Mans 24 Hours Race. The design, materials employed and measurements were taken from an original OSCA chassis. The mechanical components, such as the close ratio four speed gearbox, differential and front and rear suspension are from the OSCA 1500 S, whilst the disc brakes come from Girling. Fed by twin Weber carburettors, the OSCA type 118000 twin overhead camshaft, four cylinder, 1,500cc engine develops over 100bhp at 6,000rpm and was serviced by Mondial in Bologna in 2005, a specialist for these OSCA units. Finished in yellow with yellow and black interior, this unregistered

car is a unique and beautiful hand-bu
