Swiss Espresso: Kaffeemaschine Moto Guzzi Cafe Racer No. 8

Lead

Brushed aluminium, stainless steel and a leather seat for two: custom bike builder Axel Budde has made his latest 'coffee maker' for one lucky customer in Geneva...

The basis for the latest production from the Hamburg-based customiser is a 1980s Moto Guzzi Le Mans II, completely overhauled and transformed by Budde. The specially crafted and moulded seat has been upholstered in leather, as have the twistgrips. Like previous Kaffeemaschines, the handmade aluminium parts are polished and given a semi-matte finish.
