

CLASSIC DRIVER

Mini Classic Cabrio: Little red Rover's hood

Lead

Presence is not always a question of size, especially at prestigious British events. For the trip to Goodwood – as a spectator, that is – the rare classic Mini convertible would be ideal. Next year, maybe?...

The example shown here is one of only 2,000 factory-produced Rover Mini convertibles. Equipped with everything that a Mini driver desires, the smart Brit has the sort of likeable appearance to make sure it's always a welcome guest. Its short wheelbase also gives it a priceless advantage in the Festival's crowded car parks. Who said Mini couldn't be mighty?
