## Vespalogy: A tribute to the Vespa

### Lead

The Vespa is a style icon in the truest sense of the term. This groovy animated retrospective, aptly titled 'Vespalogy', tracks the famous Italian scooter's timeless design from 1943 to 2013...

Everyone can relate to the Vespa scooter. Some even [knit their own](#) (yes, seriously). The folks over at Parisian creative agency, Nomoon, have created their own wonderful tribute showcasing the countless variants of the lovable scooter we've seen over the last 70 years. Among the many instantly recognisable shapes are a few obscurities, such as the 1956 Vespa Tap military scooter, complete with 70mm machine gun, and the 1957 Vespa micro-car - the perfect machine for nipping along the Adriatic coast.
