

CLASSIC DRIVER

[Schaaf SDC25: For the explorer in you](#)

Lead

This is the new Schaaf SDC25: a sleek and elegant tender, ideal for exploring those idyllic coves and beautiful bays. And guess what? There's one for sale in the Classic Driver Market...

Badged as a 'daycruiser', the 25-foot tender is constructed from lightweight aluminium (with a sprinkling of teak), making it not only extremely robust, but also ensuring usability and ease of maintenance – two of the most important aspects of modern yacht ownership. The SDC25 is offered in several guises, each with its own colour combination: modern, classic, racing or art (exclusively designed by Nora Linn Visconti). While it might not possess the style or romanticism of a Riva, its quirkiness and sophisticated German design will appeal to those looking for an alternative to their primary yacht.
