Scuderia Motors: Where dreams come true

Lead

As many will know, promptly sourcing one of the very latest models from Maranello, Sant'Agata or Zuffenhausen is not as easy as it might seem. Scuderia Motors in Germany specialises in helping international customers sidestep the waiting lists in order to realise their dreams...

Newcomers such as the Ferrari F12 Berlinetta are always going to be in demand, but small-series specials – such as the 911 GT3 RS and Aventador LP720-4 50° Anniversario – also have significant lead times, if any are available at all. For many, these coveted machines appeal even more when you own one of the first in the country: Scuderia Motors caters for international buyers from markets whose supply often fails to meet demand. Managing Director Igor Lazarevic regularly sources the latest cars for clients in China and Japan, and is also fluent in English, Italian, Russian and Serbo-Croat.

Of course, you don't have to reside in the Far East to make use of Scuderia Motors' services. The Munich-based dealer also works with clients from Germany and the rest of Europe – you can view the company's current stocklist in the [Classic Driver Market](#).
