Rocket Supreme motorcycles: We have lift-off, with a twist

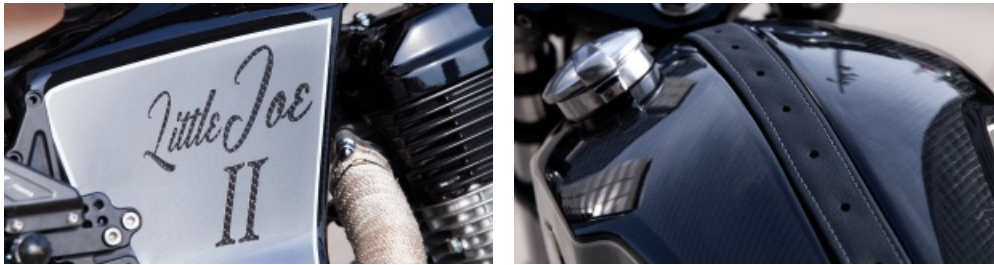

22 February 2014 | Alex Easthope

Picture your dream custom motorcycle – anything, be it a scrambler, a café racer or a thoroughbred sports bike. Got it? Well then let Rocket Supreme make it a reality...

At Rocket Supreme there are no rules. The folks at the Barcelona-based shop are happy to work with whatever you're willing to bring to the table. And even if you've got nothing in mind, its own creations, the Big Joe I and Little Joe II – so named after some of the first and most innovative space vehicles to blast off from Cape Canaveral – provide the perfect starting block to build on.

Bespoke motorcycles, handmade from carbonfibre

Each motorcycle is bespoke, handmade from carbonfibre by a crack team of experienced and award-winning design and creation specialists, between them boasting over 20 years of experience. You can be as involved in the build process as you please. Fancy checking in on your creation and giving it a test-drive? Absolutely. Prefer to keep in touch via telephone or email? Not a problem.

A passion for quality craftsmanship

Rocket Supreme is offering some of its bikes in the Classic Driver Market. The team is composed of real riders, with real passion for quality craftsmanship.
