## The Mustangs that never made it

**Lead**

Ford's legendary Mustang has remained faithful to the same basic layout for the past five decades. But along the way, Ford's designers have experimented with spin-off models to capitalise on the pony's popularity...

In the gallery above, you'll see the diverse scope of the Ford pensmiths – they experimented with four-door saloons, mid-engined coupés and chopped-roof speedsters. Early in the 'Stang's life, a shooting brake variant was even considered, and is the Classic Driver favourite from this would-be back-catalogue.
